INMATE CHEMICAL DEPENDENCY PROGRAM (CDP)

1011.1 POLICY

The Thurston County Sheriff's Office Corrections Bureau will provide chemical dependency treatment to inmates, within a therapeutic environment, that will be facilitated by contracted certified counselors and trained Corrections Deputies. This program utilizes an objective, systematic treatment system that is designed to enhance self-esteem, social, moral, and positive behavioral growth in a progressive step-by-step manner, as inmate participants move through less restrictive custody levels and life skills, in preparation for release from custody.

(a) The Chemical Dependency Program (CDP) consists of three (3) court ordered phases of inmate participation. Phase I lasts approximately ten (10) weeks and is facilitated with inmates who are incarcerated in the Thurston County Corrections Facility (TCCF) and are minimum custody at the time they enter the program. These inmates should be able to go to work, school, or volunteer as they progress through the stages of the program. Phase II participants will be housed in the Correctional Options Facility on the Work Release Program for another ten (10) weeks. Outstanding warrants should be cleared, prior to the inmate moving to this phase. Phase III lasts approximately six (6) weeks and its participants are usually on the Options Electronic Monitoring Program.

1011.2 ROLES AND RESPONSIBILITIES

- The Chief Deputy of Corrections or designee will have primary responsibility for the on-site operations of the CDP program.
- The CDP is managed by an employee of the Bureau who contracts services to provide counseling and administrative components of the CD program. This person will be responsible for administering project implementation and overseeing operations, program direction, and treatment programming.
- The Support Services Captain who will be responsible for contract documentation and compliance. They will report any program or associated issues directly to the Chief Deputy of Corrections. They will also staff and approve inmates referred by the Inmate Services Lieutenant, who have mental health concerns, medical concerns, violent criminal histories, or sex offenses.
- Continued participation in the program is at the sole discretion of the corrections administration.
- The Intensive Outpatient Program Manager, an employee of the contracted agency and assigned to this position, will report directly to the Project Director and be responsible for the day-to-day management of treatment activities, in addition to facilitating the direct provision of client services.

The Inmate Services Lieutenant, who will provide day-to-day management liaison between the Thurston County Sheriff's Office Corrections Bureau Facilities and the contracted agency's
